

Terms of Use

- Use of Select Survey is subject to UNCW, UNC System, State of NC, and Federal policies, regulations, procedures, and laws. Violations of any of the above, may result not only in the summary removal of content, but may result in further disciplinary actions to the survey administrator.
- Select Survey is provided "as is" and "as available"; the university makes no representations or warranties of any kind as to the operation, functionality, or quality of this service. This service may be discontinued by the institution at any point.
- Research involving human subjects is subject to UNCW's Institutional Review Board (IRB) Policy and must receive prior approval from the IRB.

For questionnaires or surveys that are not subject to the IRB Policy, survey creators may not collect identifiable private data from responders, such as, but not limited to, SSN, driver's license or state identification number, credit card or other banking information, or other information that could be used to access a person's financial or health records. For purposes of clarity, identifiable and other general information that is not private—such as name, email address, and work telephone number—may be collected, as long as not combined with data that would constitute human subjects research or other private information.

- Select Survey content may be removed from the system due to inactivity. An effort will be made to contact the survey owner prior to removal of the survey. If no response from the survey owner is received within 90 days the survey and results will be removed.
- Survey creators who have left the university forfeit all administrative access and data. This content will be removed unless the former employee's department contacts ITS requesting the transfer of this content to another user within 90 days of departure.
- Survey creators will retain backups of their survey data in compliance with [UNCW's records retention policy](#).
